Auto View is an Artificial Intelligence (AI) - powered video interview bot with a human touch. It can rate the candidate's body language, facial expressions and voice emotions during the interview and evaluate the assessment without any bias. The machine learning-powered video interview and assessment tool can generate a report on different factors like how many times a candidate smiled during the interview, if there was a change in the modulation of the voice or what was the level of engagement with the interviewer. Following skill sets are assessed during the interview:

- Social Skills - Positive Emotion, Composure, and Confidence - These are judged based on the candidate's facial expressions and voice features.
- Workplace Skills - Learning Attitude, Work Management, Stress Management, Communication Skills - These are based on the content that is spoken.

All are on a scale of 0-100. And the overall score is an average of the two categories.

Critical Information

- If you are logged out of the test due to any unavoidable reason, you can still resume it within four hours after which the test expires. Test can be resumed only after 2 minutes of logging out.
- Upon successful completion of your interview, you can check your detailed feedback report and your interview video using the "Report URL" which comes along with your Test completion email. This test completion email would reach your inbox soon after completing your assessment. Check your inbox and also your spam/ promotion folder.

System Requirements:

- High Quality Web Cam and Headphone with Microphone.
- Uninterrupted Internet speed (at least 1 MBPS speed with 100 MB data).
- Preferred browser - Mozilla. Chrome users must check for headset settings.

Instructions to the students appearing in an interview:

- Pls take the assessment in a calm environment and have GOOD lighting on your face.
- Do not place the light source directly behind your head or in the background. Keep your face free of shadows.
- Candidate should have a white or plain background behind him/her.
- Keep your head shoulders centred in the camera frame.
- Be sure that your face is free of obstructions. Avoid moving your hands or microphone in front of the camera.

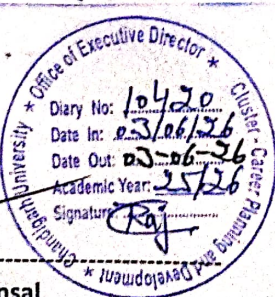

- Do not hold the mic in one hand while answering the questions.
- At the time of topic selection, you can choose your domain topic of your choice to get yourself evaluated with some technical questions. If your actual domain is not available in the drop-down list, choose any topic relevant to your domain.
- If you are logged out of the test, you can resume it within four hours after which the test expires. Test can be resumed only after 2 minutes of logging out.
- Upon successful completion of your interview, you can check your detailed feedback report and your interview video using the "Report URL" which comes along with your Test completion email. This test completion email would reach your inbox soon after completing your assessment. Check your inbox and also your spam/ promotion folder.

Do's and Don'ts of the test

- The students need to be dressed up in college uniform or formal attire only.
- Any casual attire or unprofessional behaviour is subject to test cancellation
- The students must ensure that they use an isolated room and make sure the privacy in that room is intact.
- Students undertaking the test from their hostel room also make sure of their privacy in the room.
- Nobody except the candidate is permitted in the room.
- Remove any formulas, charts or any poster from the walls facing the camera.
- Make sure for the adequate light in the room, but no direct light towards the webcam.
- No lip movement except while attempting the verbal section.
- Mobile phones should be switched off in case of Wi-Fi connections and set to silent mode if no Wi-Fi is available.
- Maintain a direct eye contact with the webcam for proper evaluation. (Critically Essential).
- Do not move your face and eyes here and there at no point of time even while thinking.
- Absolutely no mirrors or glass behind you.
- If using rough paper, keep it near the close proximity of the mouse.
- Do not use or keep any books or notes on your desk.
- No physical movement is allowed at any point of time during the interview. (Like drinking water or going to washroom)
- Table and chair should be used while attempting the test. (Sitting on bed is prohibited)
- No eating or drinking in between the test.
- Keep a close check on the time while attempting the sections.
- Ensure your registration details are filled correctly and also note down your test ID.
- Ensure that when you finish the test, the test completion message is generated by the computer and only then close the particular browser.
- Under no circumstances shall a candidate allows any other person to sit for the test on his or her behalf.

Final Checklist before the start of Pls.

- Internet connection
- Power supply
- Webcam
- Browser
- Headphone and microphone
- Uniform / Formals
- Rough papers
- Noise free room
- Mobile phone on silent / switched off (Wi-Fi)
- No connection sharing
